Call for papers

Centre for Industrial Asset Management (CIAM) at the University of Stavanger organizes a two-day conference on asset engineering and management promoting state-of-the-art practice and R&D.

Day one of the conference is a plenary session with three topics: "Sustainable Management of Assets in Infrastructure", "Competitiveness in a High Cost Country" and "Advanced Technologies". Day two of the conference consists of parallel sessions of workshops and academic paper presentations.

This is meant to be an intellectual meeting place for practitioners, academics and policy makers to drive innovation within asset engineering and management.

Organized by

Conference title:

Sustainable Asset Management for the Next Decade

Suggested topics:

- Ageing infrastructure
- Lean project management
- Lean manufacturing and production
- Asset integrity in the Arctic
- Predictive maintenance
- Advanced technologies

Key dates:

Abstract deadline: November 18, 2013
 Manuscript for review: January 10, 2014
 Final paper deadline: March 1, 2014

Author instruction:

Interested authors are asked to send abstracts to jan.frick@uis.no. The abstracts must include the contact author's postal address, telephone number and e-mail address for communication purposes.

Selected papers of archival value will be published in the **International Journal of Strategic Engineering Asset Management** (published by InderScience)

For general queries please contact us on info@vision-aeam.com
